👤 PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer,

Catware Company

08/2021 – 02/2023 | Norway

- Developed backend services using Spring boot framework and front end using React or Vue.
- Worked in a team of 9 and developed a new UI framework based on a styled system, TypeScript and React.
- Reviewed, analyzed, and optimized server performance by 50%, substituting EJS with React, NodeJS, Mongo DB, and Express.
- Resolved 300+ critical bugs in the product to improve performance and helped customers launch a seamless experience

Junior Full-Stack Developer,

Kanban (KNB)

08/2020 – 07/2021

- Contributed as part of a team that made a huge enterprise app for our biggest client, which is being used worldwide by the client's employees. The client's profits increased twofold after one year of using the platform.
- Scored a major client for the company by delivering a time-critical mobile app with React Native covering iOS and Android within one month. The app had a back end integrated with the client's Odoo system.
- Led a team of five developers in the development of an enterprise platform.
- Made a web app for a country-wide promotion game with prizes for one of the largest beer distributors in the country.
- Optimized a number of large SQL reporting queries. The execution time went down from a couple of minutes to one to two seconds. Sometimes it would be a subsecond.
